Product Information:

Hardware:

- **Processor:** Intel chipset
- **Display:** 15" display with touch screen
- **Printer:** 112 mm thermal
- **Card reader 1:** Magnetic Dip
- **Card reader 2:** Hybrid, Magnetic+ EMV Dip
- **Card reader 3:** Hybrid, Magnetic+ EMV Motorized
- **Pin Pad:** EPP TDES
- **Speaker:** Dual 4W
- **Keyboard:** Full metal keyboard with touch pad
- **Access:** Front

Software:

- Remote Monitoring Server Software
- Kiosk Management Server Software
- Kiosk Application Software
- Interface with Existing System

Why AXIS

We understand the importance of addressing the authentication needs of customers to create a comprehensive, security-rich environment. Knowing this, we have developed our capabilities in the areas of R&D & manufacturing facilities to offer customized end-to-end solutions to our customers as per their business requirements.

And we make it possible with,

- Customized end-to-end solutions.
- Exceptionally quick turn around time.
- Very low overall product development cycle cost.
- In-house research, design, development, & manufacturing.
- Required skills for developing advanced software, financial & encryption systems.
- Wide experience in product development including prototyping & injection moldings.
- Working in Linux / Microsoft / Embedded Platforms.

Benefits of AXIS Kiosk

- **Ensures round the clock sales or service:** The primary advantage of kiosks is the "machine based intelligence", which nullifies the need for a human's presence during a transaction or interaction with a client. Hence, kiosks can be functional 24 hours a day, making possibilities of sale round the clock.
- **Limits functionalities, enhances focus :** Owing to limited interaction possibilities in a kiosk, users are focused to a certain family of information, within which, their choices get limited. Hence, kiosks minimize irrelevant demands of customers to a large extent.
- **Reduces workload:** Kiosks effectively do the job of marketing, sales, or public relations personnel. Effectively, they reduce workload and cost of having commensurate number of personnel at late hours and remote locations.
- **Advertises:** Innovative kiosks and interfaces have a huge impact on the image and goodwill of your business. They become statements of your commitment, research, awareness, and reliability.
