

AX-901

Retail POS

Key Features:

- Point-of-sale (POS) terminal is biometric enabled electronic device that is used for verifying and processing credit/debit card transactions.
- Typically connected via highly reliable telephone wired connections, they require rapid dial up time, low power and reliable performance.
- If the network or server fails, the POS terminal will continue to run offline until the problem is resolved and at the time system gets online, all data is automatically synchronized, updated and stored on the server

AXIS

Product Information:

- **Processor 1:** 32 bit RISC
- **Processor 2:** 32 bit ARM9
- **Processor 3:** 32 bit Intel
- **Memory 1:** 512 KB RAM, 4 MB Flash
- **Memory 2:** 1 MB RAM, 12 MB Flash
- **Memory 3:** 8 MB RAM, 16MB Flash
- **Card Reader:** Magnetic + EMV
3 SAM slots (+1)
- **Printer:** 24 column Thermal
- **Display:** Full VGA
- **Key Pad:** Numeric+ Function+ Navigation
- **Soft key:** Optional
- **PIN Pad:** Optional
- **Privacy Shield:** Optional
- **Communication Modules 1:** TCP/IP
- **Communication Modules 2:** GSM / GPRS
- **Terminal Connector:** 2 USB, 2 RS 232, Ethernet
- **Power Supply - AC:** 240 V, 50 Hz
- **Power Supply - DC:** 7.5 V, 2.8 A
- **Weight:** Approx 0.6kg
- **Operating Temperature:** 10-55 degree c
- **Operating Humidity:** < 90% RH

Why AXIS

We understand the importance of addressing the authentication needs of customers to create a comprehensive, security-rich environment. Knowing this, we have developed our capabilities in the areas of R&D & manufacturing facilities to offer customized end-to-end solutions to our customers as per their business requirements.

And we make it possible with,

- Customized end-to-end solutions.
- Exceptionally quick turn around time.
- Very low overall product development cycle cost.
- In-house research, design, development, & manufacturing.
- Required skills for developing advanced software, financial & encryption systems.
- Wide experience in product development including prototyping & injection moldings.
- Working in Linux / Microsoft / Embedded Platforms.

Advantages of AXIS POS

- Reduce costly inventory overheads
- Make better buying decisions
- Enhance relationships with your vendors with timely inventory information.
- Save time - automate A/R, A/P, P.Os1, other accounting tasks
- Speed up your checkout lines
- Increase customer service levels
- Use the system-generated customer information to process direct marketing campaigns
- Reduce the time spent on Back Office and Inventory functions
